RE: 2023 Request-For-Quotes

Dear Recycler:

Chisago County has opened the bid process for offering Recycling services to County residents. The **“Request for Quotes (RFQ)”** is currently being published on the County website, and the **deadline to apply for the program is Friday December 2, 2022, at 12:00 p.m.** Submissions are to be sent to: Christina Vollrath, Clerk of the Board, Chisago County Government Center, 313 North Main Street, Room 170, Center City, Minnesota 55012.

Qualified recycling contractors will provide in-county collection and proper recycling of household appliances, tires, electronic items, and mattresses from Chisago County residents for the year 2023. Contractors will verify county residency and collect a fee (the approved bid amount – less the County subsidy) for items collected and submit this information in monthly reports. Contractors must also submit information about total tonnage recycled, how and where the items are ultimately processed, and have a current Chisago County Solid Waste License with insurance and bonding. Contractor must agree to the use of coupons for which they will be reimbursed for. Current recycling contractors may also be eligible for an additional incentive payment for a 5% increase in the number of residential visits over the previous year’s visit numbers.

The qualified recycling contractor must operate in compliance with the County’s Solid Waste Ordinance and all other local, State, and Federal ordinances, guidelines, statutes, and rules and regulations.

For quotes, please complete the RFQ – Bid Worksheet by identifying the price that you need to recycle an item. Recycling contractors will be selected based on their affordability and location within the County. The County reserves the right to adjust subsidy prices after RFQ’s are received, and to refuse any, and all proposals.

Thank you,

Lisa Thibodeau
